FISH AND WILDLIFE SERVICE

For Release September 11, 1980

Megan Durham 202/343-5634

#### FISH AND WILDLIFE AID TO STATES REACHES \$90 MILLION

Ninety million dollars in Federal Aid funds have been apportioned by Secretary of the Interior Cecil D. Andrus o the 50 States, Puerto Rico, Guam, American Samoa, and the Virgin Islands for sport fish and wildlife restoration and hunter safety programs. Funds become available for use on October 1, 1980.

The \$90 million, obtained from excise tax collections in fiscal year 1980, is the first of two installments distributed this year to be used by the States to finance their fish and wildlife restoration programs. The second installment will be distributed after the tally of fiscal year 1980 tax receipts is completed by the Treasury Department. Last year, a total of \$117 million in Federal Aid funds was distributed to the States.

Of the total funds available, \$56.1 million are for wildlife restoration, \$24.5 million for fish restoration, and \$9.4 million for hunter safety programs.

Funds for wildlife restoration and hunter safety programs come from an 11 percent excise tax on sporting arms and ammunition, a 10 percent tax on pistols and revolvers, and an 11 percent tax on certain archery equipment. Distribution of wildlife restoration funds is based on a formula which takes into account the number of hunting license holders and the area of each State. These funds may be used on approved State wildlife projects such as the acquisition of land suitable for habitat, development and management of habitat, and research to aid in managing game species.

Distribution of hunter safety funds is based on the relative population of each State and may be used for State hunter education programs, including construction, operations, and maintenance of public target ranges. The States, however, may also use these funds for wildlife restoration projects.

Fish restoration funds come from a 10 percent excise tax on fishing rods, reels, creels, and artificial baits, lures, and flies. Distribution of the funds is made according to a formula based on the number of fishing license holders and the area of each State, including coastal and Great Lakes waters. Activities performed by the States include the purchase of land and water areas, construction and rehabilitation of lakes, development of access sites and facilities for fishermen, and research to aid in management of sport fisheries.

The attached tables show the distribution of funds by State.

# Preliminary Apportionment for Federal Aid in Wildlife Restoration Fiscal Year 1981
